Adjusted R ²	1.000
Residual Std. Error	0.289 (df = 9997)

Note: *p<0.1; **p<0.05; ***p<0.01. This is a note ending in a period. Here’s another note. Could also have written one long note instead. About to end a note with –, and– right here:, and just so I can pick up that sentence on a new line. We see there isn’t a new period after the –and– from that line. Ending lines in other ways may add an extra period at the end.
